

## Product End of Life (EOL) Notice

Dear Valued Customer,

This letter is to inform you that Richtek (we, us, the company) plans to execute an End of Life (EOL) process for specific part numbers (see below). After review our existing product offering, we have made the determination to discontinue these products in order to provide you with more advanced products while more efficiently managing our product portfolio.

We sincerely appreciate your use of these terminated products, and your understanding on any inconvenience caused by this termination. We hope that this notification allows you time to complete existing projects using your current designs and shift future designs to one of our other advanced solutions. Please note that, if EOL occurs prior to the expiration of the warranty period, we reserve the right to service this warranty with replacement parts.

Please contact your Richtek representative with any questions or concerns regarding this matter.
