

Chandler, January 2020

CHANGE NOTICE, EFFECTIVE January 2020

CnC Tech is notifying you that we changed the manufacturing location from China to Taiwan for the following IC sockets:

210-1-XX-00X
211-1-XX-00X
212-1-XX-00X
215-1-XX-00X
220-1-XX-00X
243-XX-1-0X

These will continue to mate with the same industry standard parts they have, but there will be some minimal changes in the body of the connectors as well as some slight tolerance changes due to the manufacturing process.

For dimensional and tolerance changes please review all drawings placed on our web page.

H. Meyer
